The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or make obvious an apparatus as recited in claim 1 including the recited first laser, the recited second laser, the recited receiving substrate, and the target substrate comprising a laser transparent support as particularly recited, the means for positioning the first and second lasers as particularly recited, the means for positioning the receiving substrate as particularly recited, and including copropagating and coaxial lasers as now recited. As indicated by applicants in their comments filed October 3, 2005, the "copropagating and coaxial" limitation now included in claim 1 requires using substantially the same optical pathway, which is not disclosed or taught by, for example, Opower (5,725,914), or by any combination of the references of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
